

**As part of our drive to tackle climate change, protect the environment and improve working conditions, The Scottish Government is committed to promoting more sustainable transport choices.**

**To help organisations develop and implement their Travel Plans, we've re-launched the Choose Another Way website.**

## What is a Travel Plan?

A Travel Plan is an integrated package of measures designed to reduce the need for travel overall and to encourage uptake of more sustainable modes of transport among employees, visitors and suppliers of an organisation.

## Benefits of Travel Planning

As well as helping tackle climate change and providing environmental benefits, Travel Planning can:

- reduce organisational costs
- increase productivity
- improve staff attendance

Individuals can save money, improve or maintain their health and well-being and augment their quality of life.

## What's on the website?

You'll find a step-by-step guide to the [Travel Planning Process](#), from initial research and consultations through to implementation, marketing and promotion and ongoing review.

Follow the icons on the homepage to find out more about effective measures to encourage:

- [smarter working](#)
- [walking](#)
- [cycling](#)
- [public transport](#)
- [responsible car use](#)

Plus, we've produced a downloadable guidance document and a list of helpful [tools and resources](#).

### School Travel Plans

Specific guidance for developing [Travel Plans for schools](#) is available to download.

### Easy ways to get started today!

Check out our section on [Easy Steps](#) – simple, no-cost and low-cost ways to encourage more sustainable transport.

### More coming soon...

Look out for updates – new tools, resources and further guidance will be added.
